# 安规测试的测试项目：

- 耐压测试（交流或直流）
- 绝缘阻抗测试
- 接地阻抗测试
- 导通测试
- 接触电流测试

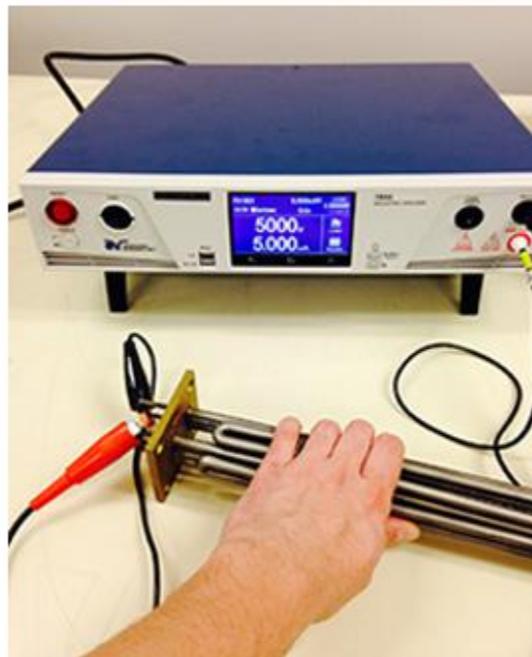

# 安规测试的注意事项:

咏绎科技

测试时, 请不要.....

ESD Smock

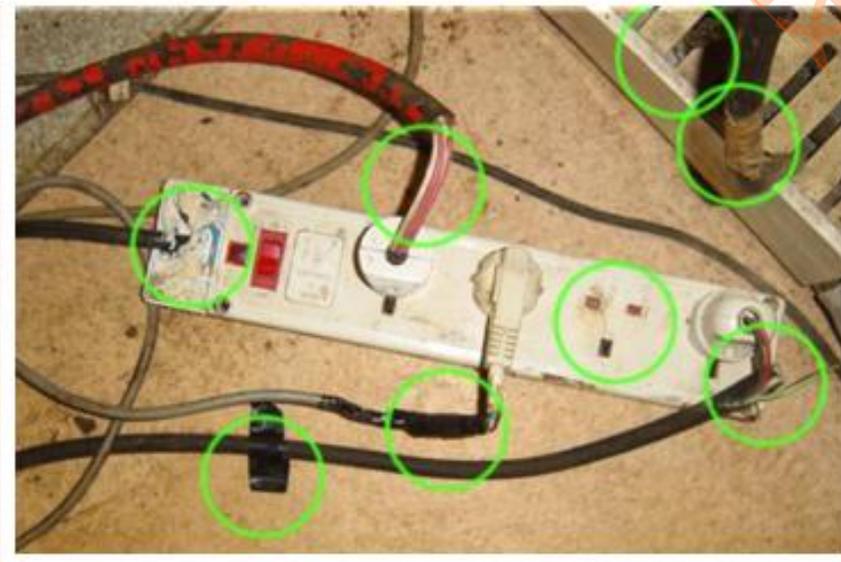

接触被测物

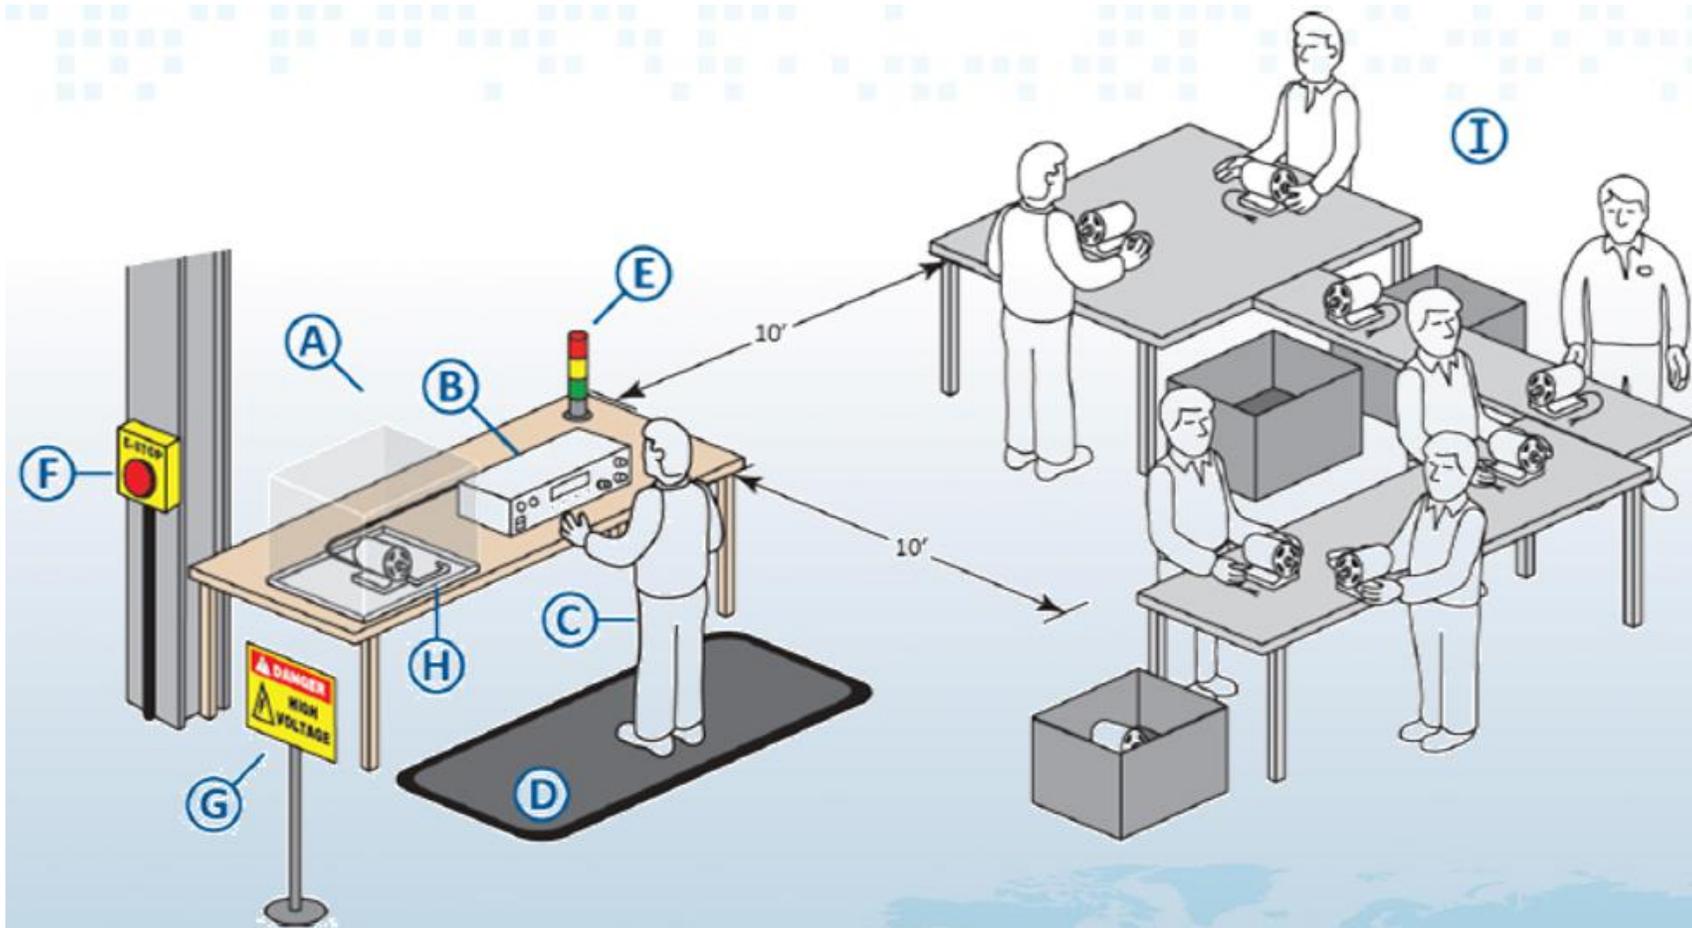

破坏设备的接地

测试时，请不要.....

合理的测试环境.....

## Methods of Safety Testing

Testing Station Without Positive Protection

# Test Station with Positive Protection

## Additional Method for Safety

### Dual Remote Palm Switches

- Activation within 0.5sec
- Simultaneous activation
- 550mm (21.6 in) separation
- Does not allow contact with DUT

### Remote Tower Light

- Illuminates RED when test in process
- Illuminates GREEN when tester idle
- Mounted in plain site of entire work area.

### Insulation Mat

- Isolates operator from ground
